

Time-Team software is designed to be used with Concept2 ergs and makes e-racing possible with live tracking, visualisation, and real-time data feeds.

- **Your coach will receive an email with a link for each rower/erg.** Please test it out and make sure that you have the bandwidth required for it to operate properly during your race. You will have a start time for your race and will be expected to be logged on and ready to go at least two minutes prior. If you are not, your entire boat may be excluded from your race. We do hope to have a “last chance” race at the end of the day, but we would prefer for everyone to race at their appointed time.
- You will also receive a link to capture live video of your team racing.
 - We highly encourage you to dress up your erg area, put a banner up behind your ergs so that people can easily see where you're from.
 - Unis are always fun. Show people your club spirit and happy racing.
